

**IN THE SPECIFICATION**

Please add the following new paragraph after paragraph [0014]:

--[0014a]     Figure 7 is an exploded view of the portable computer showing the LCD display control board, insulated sleeve, and metal foil according to the present invention.--

Please replace paragraph [0015] with the following amended paragraph:

--[0015]     The present invention will now described more specifically with reference to the following embodiments. Please refer to Figs. 2, 3, 4, 5, and 7, ~~and 5~~, a static discharge protection module of LCD display control board of portable computer have an insulation sleeve 4, a LCD display control board 3 and a metal foil 5 which pressed on the insulation sleeve 4. An inverter 31 and several LED indicators 32 are mounted on the LCD display control board 3. Other necessary components, such as integrated circuits, capacitors, resistors, etc., are mounted on the printed circuit board. The LCD display control board 3 has an inverter end 332 and an indicator end 331.--
